Attention Elected Employee:

After study, reflection and review, I have come to understand the following:

1. The Federal Reserve System (Fed) and its Board of Governors (BOG), as a whole, have a Dual Mandate that encompasses 3 main jobs. They are full employment of people and resources, stable prices and moderate long term interest rates. Our federal government, the State governments and or the Citizens of these united States are very capable of doing each and every one of these 3 jobs.

2. Overall, history has shown, beyond any doubt, that the performance of the Fed and the BOG with regards to their 3 main jobs can only be rated as very poor to worse.

3. Most importantly, the Fed monetary system, by its very design, creates more unpayable debt than money to liquidate the debt.

4. I have seen the national budget at [budget.gov](http://budget.gov). Of course there is a deficit. The budgeted inflows are less than the budgeted outlays for mandatory programs and interest on the national debt. This is before even one Lincoln penny is budgeted for security and non security government expenditures. Spending by the Government could be cut to ZERO and there would still be a deficit.

5. Our country's current monetary system is, by design, unstable, unsustainable and will ultimately fail. If this system isn't changed, its failure will bring enormous suffering and despair to virtually every citizen of the united States.

I therefore, respectfully demand, that you, as my elected employee in Congress, promote and support the passage of a new law that repeals the Federal Reserve Acts and all the amendments. Create a new National Bank that is owned, controlled and directed by We The People, that will have the sole Power to create and extinguish Money in our national monetary system. With this Power safely in the hands of the People, the Power to create Money can be used to fund the federal government without the need to levy a tax or borrow. We must end the Fed monetary system that benefits the mighty and privileged few, at a cost that makes virtually all other U.S. citizens Debt Service Slaves. Please respond to this communication and let me know your position.

Respectfully, Your Citizen Owner

### **QUOTES THAT INFORM, INSPIRE AND EDUCATE!**

“If ye love wealth better than liberty, the tranquility of servitude better than the animating contest of freedom, go home from us in peace. We ask not your counsels or arms. Crouch down and lick the hands which feed you. May your chains set lightly upon you, and may posterity forget that ye were our countrymen.” Samuel Adams.

In an 1813 letter to John Eppes, Thomas Jefferson wrote - “But although we have so improvidently suffered (foolishly allowed) the field of circulating medium to be filched from us by private individuals, yet I think we may recover it in part, and even in the whole, if States will co-operate with us.” “The states should be applied to, to transfer the right of issuing circulating paper (paper money) to Congress exclusively, in perpetuum (perpetuity).”

“To preserve our independence, we must not let our rulers load us with perpetual debt. We must make our election between economy and liberty, or profusion and servitude.” Thomas Jefferson.

“All the perplexities, confusion and distresses in America arise not from defects in the Constitution or confederation, not from want of honor or virtue, as much from the downright ignorance of the nature of coin, credit and circulation.” John Adams, letter to Thomas Jefferson.

Andrew Jackson, 7<sup>th</sup> President of the U.S. referred to the Second U.S. Bank as “a Hydra-headed monster eating the flesh of the common man.”

Money is the creature of law, and the creation of the original issue of money should be maintained as the exclusive monopoly of the National Government. The privilege of creating and issuing money is not only the supreme prerogative of the Government, but it is the Government’s greatest creative opportunity. By the adoption of these principles, the long-felt want for a uniform medium will be satisfied. The taxpayers will be saved immense sums of interest, discounts and exchanges. The financing of all public enterprises, the maintenance of stable government and ordered progress, and the conduct of the Treasury will become matters of practical administration. The people can and will be furnished with a currency as safe as their own government. Money will cease to be the master and will become the servant of humanity. Democracy will rise superior to the money power.” Abraham Lincoln.

“The Money Trust caused the 1907 panic .... Those not favorable to the Money Trust could be squeezed out of business and the people frightened into demanding changes in the banking and currency laws which the Money Trust would frame.” Congressman Charles Lindbergh, Sr. Lindbergh was no fan of Big Banks and the 1907 panic was the incident that began the process that ended with the Federal Reserve Act of 1913.

### **QUOTES THAT INFORM, INSPIRE AND EDUCATE!**

Louis T. McFadden, a former Chairman of the House Banking and Currency Committee said, "The depression was not accidental. It was a carefully contrived occurrence .... The international bankers sought to bring about a condition of despair here so that they might emerge as rulers of us all."

"The Federal Reserve bank buys government bonds without one penny ..."  
Congressman Wright Patman, Congressional Record, September 30, 1941.

From Carroll Quigley, a historian's historian. His 1966 book, *Tragedy and Hope*. "...[T]he powers of financial capitalism had another far-reaching aim, nothing less than to create a world system of financial control in private hands able to dominate the political system of each country and the economy of the world as a whole. this system was to be controlled in a feudalist fashion by the central banks of the world acting in concert by secret agreements arrived at in frequent private meetings and conferences. The apex of the system was to be the Bank for International Settlements in Basle, Switzerland, a private bank owned and controlled by the world's central banks which were themselves private corporations.... Sounds a little like Rockefeller below, doesn't it?"

"For more than a century ideological extremists at either end of the political spectrum have seized upon well-publicized incidents such as my encounter with Castro to attack the Rockefeller family for the inordinate influence they claim we wield over American political and economic institutions. Some even believe we are part of a secret cabal working against the best interests of the United States, characterizing my family and me as "internationalists" and of conspiring with others around the world to build a more integrated global political and economic structure - one world, if you will. If that is the charge, I stand guilty, and I am proud of it." David Rockefeller, *Memoirs*, 2002.

In one paragraph, Rockefeller confirms that the opinions and thoughts of "extremists at either end of the political spectrum" are correct and that he and his family are "working against the best interests of the United States." His own words speak of treason.

In the United States we have, in effect, two governments ... We have the duly constituted Government ... Then we have an independent, uncontrolled and uncoordinated government in the Federal Reserve System, operating the money powers which are reserved to Congress by the Constitution. Texas Congressman Wright Patman.

I believe that if the people of this nation fully understood what Congress has done to them over the past 49 years, they would move on Washington: they would not wait for an election ...It adds up to a preconceived plan to destroy the economic and social independence of the United States. Nevada Senator George W. Malone, 1957.

**MODULE 18**  
**QUOTES THAT INFORM, INSPIRE AND EDUCATE!**

“Sometimes it is the people no one imagines anything of who do the things that no one can imagine.” The Imitation Game, 2014.

Patriotism is supporting your country all the time, and your government when it deserves it. – Mark Twain

My Thoughts:

1. We do not need to learn history, because if we do not, we are doomed to repeat it. No, we need to learn and know fact based history so we know what to repeat and what not to repeat.
2. Remember Berit - 241; Remember 9/11 - 2,977; Remember Behghazi - 4; But first Remember the 56.
3. When You look where no one else is looking, You will see what no one else has seen.
4. Ignorance may be bliss in a moment, however, ultimately, it will lead to your downfall.
5. Systemic problems do not always require a complex answer.
6. Passing judgment on an opinion is vastly different than passing judgment on a fact.
7. The lack of an incentive to produce and save, generally will result in the unsustainable acts of consume and borrow.
8. There are 4 great powers in our world - politics, education, religion and money. Control the creation, issue and supply of money and you will control the other powers.
9. Globalism prevents and or eliminates self-sufficiency.
10. To prevent power from being abused or abusive, power must be controlled, directed and monitored by Responsibility, Obligation and Consequence.
11. Taxation isn't profit making, it is profit taking.
12. The Trifecta of Tyranny:  
Be the sole creator of money;  
Be the sole recipient of the benefits of creating money; and  
Control the issue and supply of money in a national monetary system.
