Sheriff

Dear County Sheriff,

The State of California's legislature has decided that their tyrannical will is more important than your oath to the United States Constitution and the California State Constitution. With [SB 1464](#) Sacramento is poised to force all law enforcement officials, including County Sheriffs, to enforce public health orders even if those orders violate the personal liberty of Californians.

We appreciate your efforts as County Sheriff, and we appreciate the policies you have implemented as you work with county personnel to ensure the safety of the residents of your county. The reality is that the legislators in Sacramento wish to take away your ability to operate as an independently elected sheriff, as the highest ranking law enforcement official of your county, and as the final obstacle between tyranny and our constitutionally enumerated liberties and rights.

As a concerned citizen I am writing this letter to simply assure you that I support you and your position as a constitutional sheriff, and I am in favor of keeping you independent from State Government control, as originally intended by the principles set forth during the founding of the United States and the writing of the United States Constitution. We ask that you stand with us against the unconstitutional [SB 1464](#) bill (or law, should it somehow make its way to the governor's desk).

Thank you,
